Mavis Tire Planting Notes
Hyde Park, New York

Scale | None Date | April 9, 2016 Revisions |

11th April 20, 2017
11th May 24, 2017 Blue Grama Grass, Annabelle Hydrangea,
11th June 12, 2017 replace Stouffer japonica with Ostrya virginiana
11th June 17, 2017 add Honey Locust, remove the Hydrangea

PLANTING NOTES

| PLANTING LIST | | | | | | |
|------------------------------------------|-------------------------|-----------------------|------|----------|--------------------------------------------|------|
| GENUS SPECIE | COMMON NAME | SIZE | KEY | QUANTITY | NOTES | Zone |
| Koeleruteria paniculata | Golden Rain Tree | 3' - 3.5" Cal | KP | 3 | Introduced Heat Tolerant | 5-9 |
| Ostrya virginiana | American Hophornbeam | 3' - 3.5" Cal | AHHB | 10 | Native | 3-9 |
| Ilex x meserveae 'Blue Boy' | Blue Boy Holly | 2'-3' B&B | BBH | 1 | Introduced Evergreen | 5-7 |
| Ilex x meserveae 'Blue Girl' | Blue Girl Holly | 2'-3' B&B | BGH | 21 | Introduced Evergreen | 5-7 |
| Buxus 'Green Mountain' | Green Mountain Boxwood | 30"-36" x 30"-36" B&B | GB | 6 | Introduced Evergreen | 4-9 |
| Hydrangea macrophylla 'Annabelle' | Annabelle Hydrangea | 3 gal | AH | 22 | Native - White Flowers | 4-9 |
| Hypericum frondosum 'Sunburst' | Sunburst St John's Wort | 2 gal | HSW | 9 | Native, White Flowers | 4-8 |
| Rhus aromatica 'Low Grow' | Fragrant Sumac | 2 gal | RALG | 69 | Native, fragrant when bruised, stoniferous | 4-8 |
| Sedum spurium 'Fuldaglut' | Sedum Fuldaglut | 1 gal or 4" pot | SF | 558 | Drought and Salt Tolerant | 3-9 |
| Liriope muscari 'Variegata' | Variegated Liriope | 1 gal or 4" pots | LMV | 1,596 | Low Grassy texture, Purple Flowers | 5-10 |
| Pennisetum alopecuroides 'Red Head' | Red Head Fountain Grass | 1 gal or 4" pot | PARH | 29 | Introduced Drought tolerant | 5-9 |
| Bouteloua gracilis | Blue Grama Grass | 1 gal or 4" pot | BG | 219 | Native, showy seed heads | 3-10 |
| Ratibida pinnata | Gray Headed Cone Flower | 1 gal | RP | 13 | Native, tall yellow flowers | 3-8 |
| Rudbeckia maxima | Giant Rudbeckia | 1 gal | RM | 13 | Native, tall yellow flowers | 4-9 |
| Elymus arenarius 'Blue Dune' | Blue Dune Lyme Grass | 1 gal or 4" pot | EBD | 396 | Introduced Drought Tolerant | 4-9 |
| Perovskia atriplicifolia 'Little Spires' | Russian Sage | 1 gal | PALS | 13 | Introduced Purple Flowers | 5-9 |
| Perovskia atriplicifolia | Russian Sage | 1 gal | PA | 23 | Introduced Purple Flowers | 5-9 |
| Echinacea palida | Pale Cone Flower | 1 gal | EP | 16 | Native Purple Flowers | 3-8 |
| Gleditsia triacanthos 'Inermis' | Thornless Honey Locust | 3' - 3.5" Cal | THL | 2 | Native | 4-10 |

- All plant material must conform to American Standard for Nursery Stock ANSI Z60.1-2014
- Voluntary Alternates/Plant substitutions must be approved by the Designer/Landscape Architect
- All plant material delivered to the site and or planted must be maintained by the Landscape Contractor until the scope of agreed Landscape work is complete
- All wire baskets must be either removed from the root ball or cut from the root ball after placing the plant in the planting hole
- All burlap must be removed from root balls or cut away from the root ball after placing the plant in the planting hole. All planting holes must be 50% wider than the root ball or container root mass.
- The indigenous soil or back fill for major trees must not be conditioned unless rocky or unsuitable conditions are present
- Incorporate 50% organic soil media and slow release fertilizer per instructions into indigenous soil used to back fill shrubs, perennials and ground cover. Ground cover areas in particular may require mechanical tilling in an effort to create a friable soil texture
- Any soil glazing created by the back of the shovel shall be removed by reversing the shovel and caving in the planting hole

- A soil pH test is highly recommended before planting begins
- All existing unwanted plant material and weeds and their roots systems must be completely removed from planting beds prior to installing new plant material. The use of Round-Up may be required to eliminate invasive/stoloniferous weeds. Only a licensed professional may apply Round-Up
- Only non-dyed natural mulch may be used. Install mulch to a depth of 2" - 3"
- Stake any trees or plants that may be affected by high wind loads.
- Where an automatic irrigation system is recommended, the Landscape Contractor shall provide proof of CID, CIC, CIT - Certified Irrigation Designer, Contractor, Technician through the Irrigation Association
- It is the Landscape Contractor's responsibility to comply with all local and state codes. Any permits required for the Landscape Contractor's work must be obtained by the Landscape Contractor
- It is the Landscape Contractor's responsibility to coordinate the planting schedule with the owner
- Any deviations from the design due to unknown site conditions must be brought to the attention of the Designer/Landscape Architect

- All Grasses and perennials must be cut back either in fall or early spring - before new foliage emerges. Bouteloua and Pennisetum must not be pruned lower than 12"
- Annabelle Hydrangea and St. John's Wort can be pruned to 12" - 18" each fall or spring - before new foliage emerges
- Boxwood do not require pruning...prune as desired for shape
- Prune the Sophora japonica and Koeleruteria paniculata for structure and open habit for the first 3-5 seasons.
- The three existing Honey Locust on the applicant's property along Rt 9 should be thinned by 15% to encourage a more broad, open growth habit.
